Professional summary

Frontend Developer with **2+ years of experience** building **scalable, high-performance mobile applications** using React Native for consumer-facing and enterprise products. Strong expertise in **cross-platform development, real-time** features, and **third-party SDK** integrations. Proven ability to deliver production-ready applications, optimize performance, and collaborate with cross-functional teams in fast-paced environments while crafting clean, maintainable, and user-centric mobile solutions.

Technical skills

- Languages : JavaScript (ES6+), TypeScript, Kotlin, Java
- Frameworks : React Native, Next JS
- Databases : Firebase Firestore, SQLite, RoomDB, MySQL (basic)
- Web & Mobile Technologies : REST APIs, Firebase Auth, FCM, Redux, Axios, Context API
- Tools & Platforms : Git, Postman, Android Studio, VS Code, Xcode (basic) ,AI Editors
- Cloud & Services : Firebase, AWS IVS, Agora SDK, Stripe

Professional Experience

React Native Developer

Idealit Techno Pvt. Ltd., Indore | ***APR 2024 – Present***

- Developed scalable **cross-platform** mobile applications using React Native with reusable and **modular architecture**.
- Implemented real-time live **video streaming** using Agora SDK and AWS **IVS** to support live events and interactive sessions.
- Built real-time **chat**, **notifications**, and backend synchronization using Firebase **Auth**, **Firestore**, and **FCM**.
- Integrated **in-app purchases**, **subscriptions**, and secure **payment** flows using **Stripe** and platform IAP solutions.
- Managed **Google Play** Console and **Apple Developer** accounts, handling **app releases**, provisioning and third-party integrations.

Projects

JoyVoy – (A **social networking** platform connecting influencers, venues, and event participants.)

- Built core mobile features using React Native to enhance event discovery and social engagement.
- Implemented interactive workflows enabling influencers and venues to collaborate, increasing visibility and event participation.
- Gained hands-on experience in scalable UI architecture, state management, and performance optimization for social applications..

Veels (Web + App) – (Social Media **OTT Platform** for Streaming, Live Sessions, and Short Videos.)

- Developed key functionalities including media upload, dynamic content feeds, and real-time live streaming using React Native.
- Implemented custom hooks, reusable components, and dynamic theming to ensure smooth UI performance across devices
- Collaborated on real-time user , improving content delivery and app responsiveness.

Task Easy – (Android-Based **Home Services** Application for Customers and Contractors)

- Developed a dual-panel Android application using Kotlin to manage customer service requests, contractor task assignments, and work progress updates efficiently.
- Integrated secure payment flow and complete service lifecycle handling, gaining hands-on experience in Android architecture and business logic implementation.

Education

- **MCA -** Devi Ahilya Vishwavidyalaya (DAVV) Indore | **7.0 CGPA**
